

FOR PRESIDENT IN 1888,

JAMES G. BLAINE,  
OF MAINE.

Subject to the decision of the Republican National Convention.

"We always have the American flag above us and not below us."—James G. Blaine.

## CROP AVERAGES.

The statistician of the department of Agriculture reports a further extension of the corn area, by about one and one-half million acres, an increase of 2 per cent. over last year. A marked advance is noted in the district between the Mississippi and the Rocky mountains and there is considerable increase in the cotton States. The season has been fairly favorable both for planting and growth. The condition of winter wheat on the 1st of July was 83.4, a reduction since the June report of 1.4. There has been a heavy decline in Kansas, a material reduction in California, with some loss in several of the Southern States. Some of the remainder gained a point or so and others lost. The cinch bug has wrought some damage. In most of the Western States, where the harvested grain is thrashed, the results are variable, with plump, sound grain in some localities and shrunken berry indicated in others.

There is reported a somewhat serious decline in the condition of Spring wheat, largely from the prevalence of cinch bugs. The general average is 79.3, a decline of eight points during the month. The cinch bug, Hessian fly and grasshopper in the North-west and the joint worm in West Virginia have all aided in the reduction of the wheat yield.

The average condition of Winter rye is 88; Spring rye, 81.3; showing a decline in condition since last report.

The average for barley is likewise reduced to 82.8 from 88.9 last month, a decline mainly in the West.

A reduction appears in oats from 91 in June, to 95.9, due to drought and insect ravages, the heaviest in Kentucky, Illinois, Wisconsin and States West of the Mississippi.

There has been an increase of 2.7 per cent. in the acreage of potatoes; the largest rate of advance is in Dakota, Kansas and Nebraska. The average is 93 which is little below the July average of the previous three years.

There is apparently a decline of about 1.6 in the tobacco area.

The status of the cotton crop has not declined since the last report.

The matter of the listing and taxing the odd sections of land within the railroad grant limits effects more than the interest of the several counties through which the C. P. R. passes. The entire State is interested, because she would receive her pro rata of the fund coming from this source, which in a short time would reduce the rate of taxation for State purposes. This being so any Assessor who is in doubt as to his duty in the premises should consult the District Attorney of his county as to what is proper. The question being one which will effect the revenue of the State and several counties of the State, the opinion of the Attorney General should be solicited. General Alexander can fathom the matter and if called upon by those in power would give an opinion which would command respect at home and abroad. What the JOURNAL desires is light on this matter which is so material to the railroad company and the State. We believe the opinion of General Alexander can be reached by some of the several Assessors interested appealing to the District Attorney of his county, and that officer by reason of the direct interest the State has, appealing to the Attorney General for his views. There certainly is some way of officially cracking this nut, in which there is so much meat, a part of which belongs to each taxpayer within this State.

Although nothing official is known upon the subject, it is believed at the State Department that J. Fenner Lee, Secretary of the Legation at Vienna, has forwarded his resignation. Mr. Lee it is said, is piqued at not being promoted to the office of Minister, which post he has filled since the rejection of Mr. Kelly. Both he and his family are very popular in Vienna. His appointment as Minister would have been very satisfactory to the Austrian Foreign Office, if the advices which reached Washington from that source are to be believed.

The President is having a good time swinging around the circle. The JOURNAL hopes he will enjoy himself.

"Calico" is down since the news from Hawaii.

## THE AMERICAN PARTY.

The State Central Committee of the American Party, of California, has issued the following address and platform:

The American party, called into existence to repel the invasions of dangerous enemies that threaten the safety of the country, and who imperil the existence of republican government within its borders, makes no apology for its organization. It is the party of national defense, called upon to perform duties which through cowardice and indifference, have been avoided by both the historical parties of the country. The institutions of our country are in danger of being destroyed by a class of alien people who are ignorant of their cost and indifferent to their value. They have taken violent possession of the ballot box and assured control and management of the political offices of the nation. Criminals, paupers, vagabonds and political adventurers are swarming to the country in dangerous numbers, till, emboldened by their strength, they have combined to direct and control our public affairs. Encouraged by rival political support, they are aided by corrupt practices to become electors, zealous partisans and corrupt party judges aid them in their criminal efforts to break down the laws, in their haste to become citizens, and when enrolled as such, they are encouraged by rival parties to demand possession of official positions, the duties of which they are mentally and morally unequalled to discharge. To such an extent have these practices been carried, that we find the land infested with an ignorant and criminal population which has become dangerous to the welfare of the country, bringing ignorance to our judicial bench, and demoralization to every branch of our Government. The respectable native-born American citizens, and the respectable and honorable class of intelligent adopted foreign-born citizens deem it necessary to combine for purposes of self-defense, and for the preservation of republican form of government, into a political party. The first object of this party is patriotism; to preserve the institutions of the country from destruction, and to maintain the laws from violation by this invasion of European barbarians, and to maintain order and good government in the country is the primary object of the American party. We invite to this organization all intelligent and honorable men of all nationalities, all religious beliefs, and from all parties and all sections of our country. This party of the people has no leaders as yet; it is an army of fighting men in process of organization, awaiting recruits in order to observe who of the rank and file shall first display in action the genius and courage to entitle them to promotion from the ranks to the responsibility and authority of command. This convention is for the purpose of organization and enlistment. All honest citizens, of whatever nationality or religion, who are Americans in sentiment acknowledging their first allegiance to the laws and Constitution of the Government of the United States, are entitled to enrollment in its ranks, and to participation in all the honors and offices, except that of the President, that may come from its triumphs and its victories. Americans of alien birth, who recognize obedience to the laws and fealty to the Constitution as their first and paramount duty, and with honest purpose have sworn their civil allegiance to all foreign political powers, civil and ecclesiastical, are entitled, in alliance with Americans of native birth, to rule America. This Republican commonwealth has for the underlying principle of its Government that the majority must rule. All citizens have equal voice in the enactment of laws, in the selection of magistrates and in choice of all executive and administrative officers. It therefore follows that all must yield unquestioned obedience to the laws so long as they are rightfully administered and until they are legally changed. Labor has no rights outside of the law. Wealth has no prerogatives above it. The rights of individuals are higher than the privilege of classes. Freedom of opinion and its proper expression are sacred. The ownership of property is inviolable. This convention, called for the purpose of organizing an American party in the State of California, declares itself in favor of the following principles: "First, all citizens of native birth and all who have become citizens by adoption, who are of good moral character and who are loyal to the government of the United States of America and obedient to the laws, who as native citizens, acknowledge no other or higher authority than the Constitution of the United States and the Constitution of the State in which they reside, and who, by the process of naturalization, have in good faith forsworn their allegiance to every civil and ecclesiastical authority of a foreign character, are entitled to become members of the American party, to equal participation in all its privileges and to partake of all its benefits. The American party is in favor of so amending the laws of immigration as to prevent the coming to our shores of all aliens who are criminals or paupers, of all who are not of a moral character, intellectual capacity and physical health to give assurance of their value as citizens; and in favor of restricting the importation of all laborers under contract of hire in any industrial or mechanical pursuit. The American party is in favor of the immediate and unconditional repeal of all naturalization laws, reserving the rights of all who have in good faith declared their intention of becoming American citizens, allowing them to complete their legal process of naturalization. There shall be no interference with our present non-sectarian free schools system of education; no interference by any church or religious organization in the politics of the country; there shall be no connection of any character whatever between church and state, and all political controversies of whatever character, existing in other countries, shall not become the subject of agitation or consideration in the United States of America. The non-resident alien shall not be entitled to our lands in the United States, nor permitted to receive the same by inheritance; and none but citizens shall be authorized to acquire title to any part of the public domain, or to the enjoyment, use or occupancy of the same. Laws shall be passed

compelling all citizens to exercise the privilege of the elective franchise, providing penalties for the avoidance or non-performance of that duty. All labor organizations or trade unions outside the law, or which undertake to bring about results of an unlawful character should be discontinued, and by every lawful means discouraged. Every American citizen is entitled to obtain labor, or follow any industrial pursuit without the interference or hindrance of any illegal organization, and every American boy or girl has the right to be apprenticed to any trade, or to follow any lawful calling, without the hindrance or dictation of any trade union or mechanical guild. The "boycott" is an alien and cowardly device, the growth and transplant of foreign soil, and shall find no favor or indulgence by an American party. The American party of the State of California, composed of the better and higher elements of American civilization; embracing the intelligence, the moral excellence and the patriotism of that portion of the American people residing in this State, does not think it necessary at this period of its organization to take issue or define its position upon all questions of public importance that are now being considered. Its members must necessarily differ upon many subjects now under discussion, coming as they do from both the great national parties, from all sections of the Union, it is proper that, as a party, they confine themselves to the expression of such opinions only as are necessary to define their position, and as they deem essential to their distinctive political organization. With the past differences that led to the Civil War the American party had nothing to do. The war is ended, and we are again a union of States at peace with each other, having only a common duty—viz., to preserve our country, and all of it, from all its enemies, foreign and domestic. Whether we shall become the part of a great national party charged with the consideration of great national questions depends on the future, and upon circumstances beyond our control. We shall hold ourselves in readiness to become a part of the great army of national defense when we are called upon to perform that patriotic duty, and if we are ever summoned to participate in the councils of a national American party we shall be prepared to do our duty. Till that time comes we forego expression of opinion upon a multitude of questions that are national in their character. There are, also, many questions of local importance that we leave in abeyance till such time as we are required to give expression upon them with a view to their practical solution. Our first necessity is organization. We organize as Americans to assert our right to home rule of America by Americans, not doubting our ability to meet and determine any and every question, local or national, that may present itself for the consideration of the party in the future. In view of the national organization that will be convened for the nomination of President and Vice President of the United States, the Executive Committee shall be authorized to appoint delegates thereto, and to enroll the American Party of California in the American National Party of the United States.

## OUR CONSTITUTION.

The Centennial Anniversary of Its Adoption.

PHILADELPHIA, July 10.—Colonel A. Lowden Snowden, the Marshal in charge of the civic and industrial demonstration to be held as part of the celebration in commemoration of the centennial anniversary of the adoption of the Constitution in September next, has addressed letters to the Governors of the several States, suggesting that they appoint committees in their respective States, to which shall be assigned the duty of directing the attention of citizens to the subject, and the organizing of industries for participation in the demonstration, which it is proposed to make, if possible, the most imposing of the kind ever witnessed on this continent.

The Delhi mine, in Nevada City, Cal., the other day made a partial clean-up that yielded \$20,100. A dividend has been declared (No. 6) and outside of the dividend there is gold, bullion and sulphurets on hand worth \$100,000.

Colonel J. S. Cooper, a Chicago lawyer just returned from the Pacific coast, declares himself strongly against Chinese immigration.

## INDIAN PONY RACES.

On Thursday, Sept. 22d, Monday, Sept. 26th and Thursday, Sept. 29th the novelty of an Indian pony race will be provided, and the amusing sight of twenty or thirty noble red men of the forest, mounted on the wildest and most unmanageable cayuses imaginable, galloping around the track at break-neck speed, will, as they say at the circus, be alone worth the price of admission.

## CLYDESDALE MEDALS.

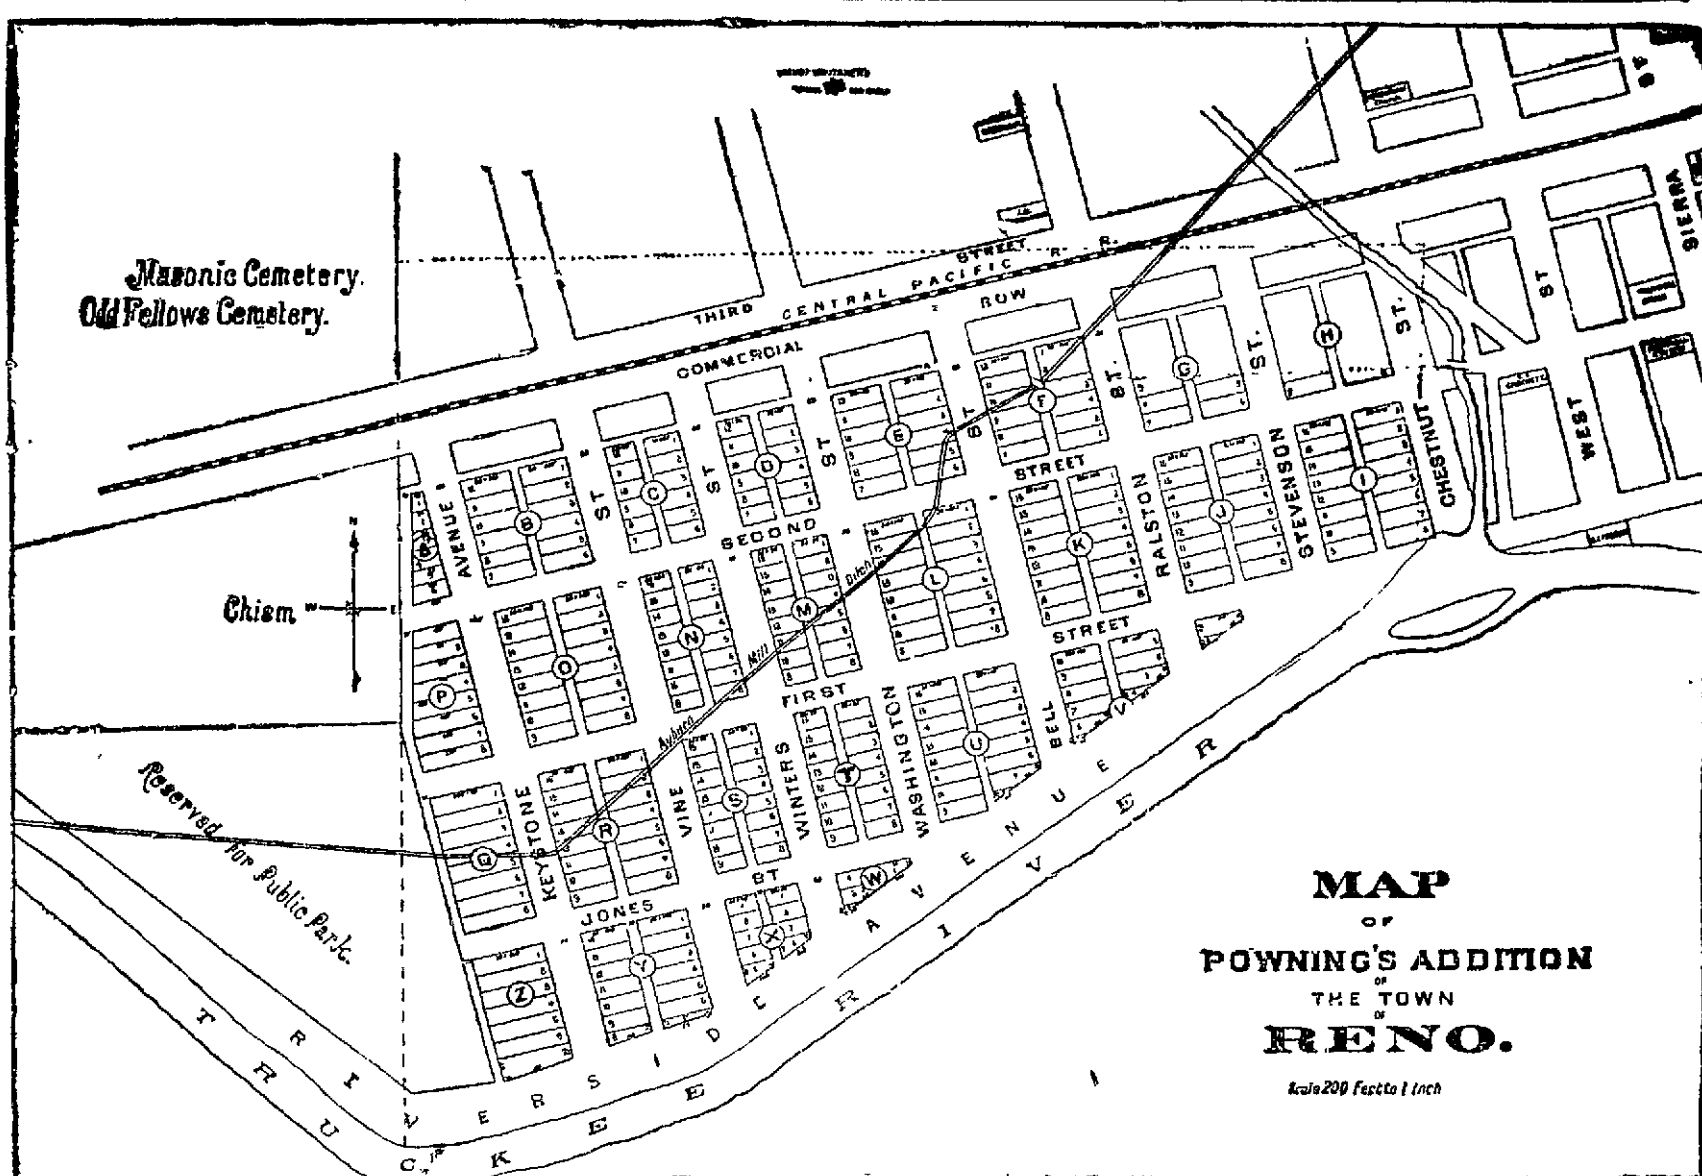

The American Clydesdale Association will give a valuable medal, of suitable design, for the best recorded Clydesdale stallion, and a similar medal for the best recorded Clydesdale mare bred in Nevada, and exhibited at the State Fair of 1887.

## BALLOON ASCENSIONS.

Arrangements have been made for a series of balloon ascensions during the Fair, alike novel and exciting. Ascensions will be made daily from the race-track.

## BICYCLE RACES.

Two or three bicycle races will take place between the fastest wheelmen in the State, and ten contestants are counted upon.

# 250 Beautiful Lots For Sale!

A RARE CHANCE FOR INVESTMENT AND A HOME.

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Riverside Avenue Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

## PARKER'S MAP OF NEVADA.

### PARKER'S NEW MAP OF NEVADA.

THIS NEW AND BEAUTIFUL

## MAP OF THE STATE,

Has Just Been Published, and is Now Ready for Sale.

It has been completed with great care in order to be strictly correct, and furnishes a vast fund of valuable information regarding the topography of the State. There never has been a Map of the State prepared heretofore worthy of the name, and it is intended to fill a long-felt want on the part of citizens. It has been lithographed at large expense by the famous publishing house of Rand, McNally & Co., of Chicago, and does great credit to their well-known skill in the art. The Map is drawn on a scale of 12 miles to the inch, and shows all surveyed Townships up to date of issue, also all Mountain Ranges, Valleys, Rivers, Creeks, Brooks, Streams and Lakes; it also shows the correct position of all Indian and Military Reservations, and all Cities, Towns and Settlements; also all Railroads and the principal Wagon Roads. The County Boundaries are also depicted with absolute correctness, which is something that no other Map has even approximated to.

The Map is printed on the best of paper, and mounted with stick, top and bottom, with tape on edges and varnished; it is also printed on thin, strong paper, which folds up in stout covers for pocket form. The Counties are printed with different colors, making it altogether an ornament to any school house, office, saloon or private room, as well as valuable for instruction and reference.

The Map has been compiled by John W. Parker, the Chief Draughtsman of the United States Surveyor-General's Office at Reno, who holds the copyright, and is the condensation of all information on file in that office, as well as the celebrated War Department Maps prepared by Lieutenant Wheeler; he has also had at his command other recent and reliable data on which to rely, and the Map is issued to the public in the firm belief that it is in every way authentic.

The Price of the Map is \$5.00,

And copies will be sent to any address, postpaid, upon receipt of the money. Parties ordering will be careful to state which style is desired—mounted or pocket form.

John W. Parker,  
Reno, Nevada.
